### Assignment 2 : Field Visit Report - Connecting NGO

#### Introduction

Suicide is the act of intentionally causing one's own death. Mental disorders, nihilistic beliefs, physical disorders and substance use disorders are risk factors. Approximately 1.5% of all deaths worldwide are by suicide and there are many more people who attempt suicide. Every suicide is a tragedy that affects families, communities and entire countries and has long-lasting effects on the people left behind. Suicide occurs throughout the lifespan.

Connecting is a non-governmental organisation based in the city of Pune, Maharashtra. The NGO works to prevent suicide by creating awareness and to provide support to those who have lost a loved one to suicide.
